ESSENTIAL PPE FOR FIRST RESPONDERS FROM ADVANCED SUPPLIERS

BODY ARMOUR - PLATE CARRIERS - TACTICAL GEAR - MEDICAL

WELCOME TO ARCTOS!

You are the expert.

You know what works and what you need to perform effectively on the job. At Arctos Industries, we seek out and offer that equipment based on your requirements and expert opinion.

We approach our relationships as friends and problem solvers. We don't push gear you don't want or need and we are constantly on the hunt for the lightest, thinnest, innovative gear.

Currently we are proud to represent, what are in our opinion, the best brands in body armor that have the thinnest, lightest NIJ certified options on the market including ShotStop Ballistics for rifle plates and SafeLife Defense for soft armor vests.

Not only does ShotStop have the thinnest plates on the market they lead the industry with an incredible 15 year warranty, saving departments thousands. SafeLife Defense's new Hyperline soft armor measures up at only 4.5 mm thick!

We are excited to demo these great products for you.

SHOTSTOP

DURITIUM® III ICW BODY ARMOR

- Duritium® III ICW (In Conjunction With) Body Armor Plates
- The ICW plate is designed to be worn in conjunction with soft armor for ultra-lightweight, ultra-comfortable rifle protection
- Protection Type/Level: U.S. NIJ Level III ICW 0101.06 (In Conjunction With Level IIIA Soft Armor)
- Special Threat Testing: 5.56x45mm 55 grain ball (M193), 7.62x39mm PS ball (MSC), 7.62x51mm 148 grain M80 FMJ
- Material Type: Duritium®
- Weight (10x12 Shooter Cut): 2.4 lbs. (1.1 kg.)
- Thickness (+/-0.125"): 0.6 in. (1.5 cm.)
- Warranty: 15 Years
- Finish: Polyurea*
- Strike Face Configuration: Edge-To-Edge Duritium® Ballistic Polyethylene

ADVANTAGES/BENEFITS

- Protection without the wear & tear on your body
- Full confidence at minimal weight
- Armor you'll actually want to wear
- Maximum protection at lower cost
- Longest product life in the industry
- NIJ listed, STANAG & VPAM certified for highest confidence
- Increased protection with maximized mobility
- Rifle protection without restriction
- Maximum operator confidence
- Confidence against these threats in active duty
- Lighter and stronger (increased mobility)
- Full maintenance free confidence for life of product
- No time or money spend full term of ownership

*Polyurea finish can vary in appearance and sheet. This has no impact on the ballistics capability.

SHOTSTOP

DURITIUM® GT2 - GREEN TIP BODY ARMOR INSERT

- Protection Type/Level: Special Threat
- Compliance Tested: MIL-SPEC, Abbreviated U.S. Level III/Special Threat
- Special Threat Testing: 5.56 x 45-mm, 82-grain M855 ball
- Material Type: Duritium®
- Weight (10x12 Shooter Cut): 3.8 lbs. (1.72 kg.)
- Thickness (+/-0.125"): 0.6 in. (1.52 cm.)
- Warranty: 15 Years
- Finish: Polyurea*

Strike Face Configuration: This ShotStop Ballistic plate's strike face falls within the current NIJ 0101.06 standard fair shot six-shot pattern. The strike face is rated for the Special Threat Testing listed above. The ballistic protective polyethylene perimeter is not fair shot rated to stop an M855 bullet but offers ballistic protection against 5.56x45mm 55 grain ball (M193), 7.62x39mm PS Ball, 9mm, 357 Mag, 44 Mag. The edging or buffer was engineered to allow for lighter weight, mobility, longevity and durability against corner cracking and drops. It also enables the plate to have an industry-leading warranty life.

- **Weight (10x12 Shooter Cut):** 5.3 lbs. (2.4 kg.)
- **Thickness (+/-0.125"):** 0.9 in. (2.3 cm.)
- **Warranty:** 10 Years

Stopping one armor-piercing shot is required by the NIJ. Ours stopped six!

The Duritium IV+HS Level 4 body armor plate exceeds the NIJ requirement by 6x. Our patented Duritium® technology combines the hardness of composite alloy with the strength of Duritium® polyethylene to defeat the most powerful ammunition out there. Plus, with a **10-year warranty**, you'll have protection that lasts!

SAFE LIFE

DEFENSE

Threat Level:

- IIA - Handgun, Shotgun, Strike & Slash
- IIIA+ - Handgun, Shotgun, Strike, Slash, Stab, Taser & AP
- Hyperline™ - Hyper Thin - Handgun, Shotgun, Strike & Slash
- FRAS™ - Rifle Rated Flexible Armor

Backpack Armor

Introducing ELITE protection on the go – Safe Life Defense Backpack Armor Panels! Flexible, lightweight, water-resistant, and offering the EXCLUSIVE Safe Life Defense Multi-Threat protection you love and trust, these panels are the absolute best in backpack armor! You can now have the same protection found in our ballistic vests with our NEW backpack panels! Safe Life Defense backpack panels utilize a unique tapered edge design, guaranteeing a great fit into a wide variety of backpacks – no more struggling with your zipper! The panels are also Self Structured™, ensuring superior comfort and support for your back! Because of their built-in structure, the panels can also be used on their own.

FEATURES

- Self Structured™ for increased durability and an effortless fit
- Tapered edges for a perfect fit
- Durable 600d Polyester Carrier
- Water and stain resistant
- Dimensions: 11" x 14"

PROTECTION LEVELS

- **Level IIIA** – Bullet, Strike & Slash Protection
 - Reliably defends against all common handgun rounds including .357, 9mm, 45acp, all the way up to .44 magnum and 12 gauge slugs. Additional strike and slash protection comes standard.
- **Level IIIA+** – Bullet, Strike, Slash, Stab, Taser and Armor Piercing Protection
 - All of the protection from level IIIA in addition to stabs up to 36j of force, tasers, and typically armor piercing handgun and shotgun ammunition (Liberty Civil Defense & FN 5.7)
- **HYPERLINE™ IIIA** – Hyper thin and hyper lightweight. Handgun, Shotgun, strike and slash Protection. Providing an unprecedented level of protection, weight saving and thinness (0.19"), Hyperline™ is hyper performance proprietary composite armor with excellent blunt force protection and multi hit capabilities.
- **FRAS** – Rifle Rated! .223 and 5.56 protection including Green Tip, M193, M855, SS109 as well as 7.62x39 lead core ammo.
 - Slide this 11x14 plate into a backpack for protection against RIFLES like .223 and 5.56! At ONLY 5.3 pounds, this is **the most protective and comfortable backpack armor on the market** that can be carried by anyone, regardless of their size.

FRONT ANGLED VIEW

FRAS[®] Level III+ Standalone Plate

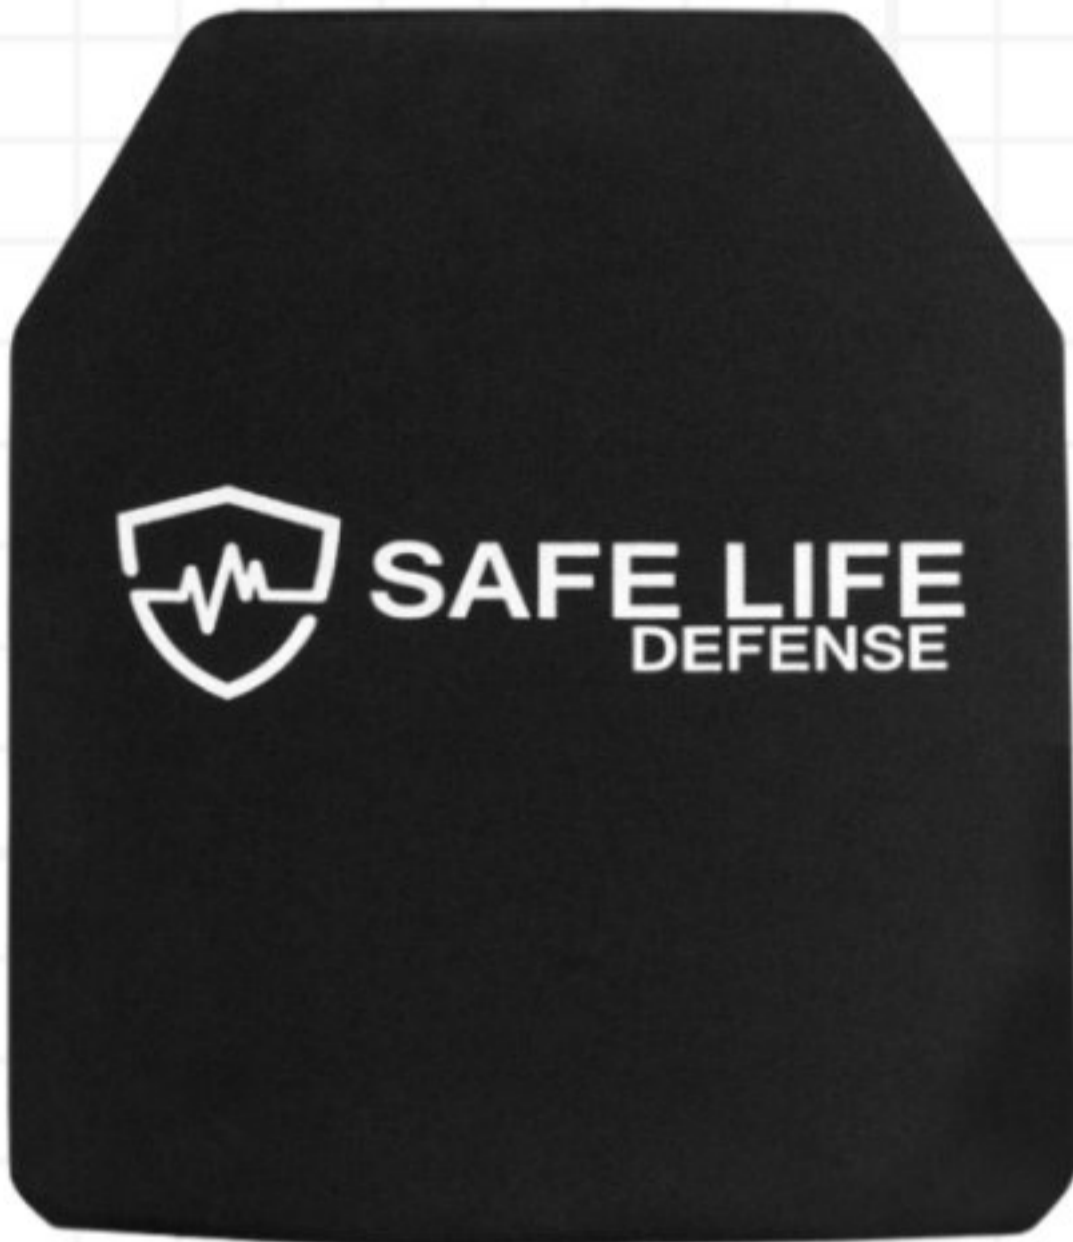

Introducing the most protective FRAS[®] armor ever made: Level III+ STANDALONE FRAS[®] in plate size 10x12. This armor needs no soft armor backing to defend against .308 and 7.62x54r with excellent BFD ratings!

FEATURES

- **TRULY FLEXIBLE RIFLE ARMOR:** Conforms and Feels like Soft Armor
- **Standalone Rating III+:** Multi-Hit 308 & 7.62x54r as well as SS109 & XM193
- **Blunt Force Protection:** All ratings are within the NIJ Safe Zone of 44mm BFD
- **Additional Protection:** Handgun, Shotgun, Strike, Slash, Stab & Taser Resistant
- **Spike Rating:** NIJ Level 3 up to 65 Joules of Force
- **Weight:** 4.75 lbs | Thickness: 1"
- **Extreme Comfort:** Easy to Wear for 12+ Hours
- Unmatched by ANYTHING on the Market
- 5 Year Warranty and Incident Guarantee
- **PAYMENT PLAN:** No Interest and No Credit Check through Zip

HOW TO USE THIS (MULTIFUNCTIONAL)

1. **STANDALONE** This 10x12 plate achieves level III+ protection against threats **up to .308 & 7.62x54r!** This also includes Green Tip, M193, M855 & SS109
2. **BACKPACK ARMOR:** Do your customers need protection on the go? Instruct them to slide it into a backpack. At ONLY 4.75 pounds, this is **the most protective backpack armor on the market** that can be carried by anyone, regardless of their size.

HYPERLINE™ Level IIIA Panels

At Safe Life Defense it is our mission to endlessly improve the body armor industry and, even more importantly, to protect and save lives. The release of Hyperline™ HLHG2 is a landmark development in the future of covert performance armor. It eliminates all compromises by combining the best of safety, thinness, weight savings and cost effectiveness. If you want to be invisible in your body armor, and improve comfort, while enhancing your level of protection, choose to wear Hyperline™.

EXPERT CRAFTSMANSHIP

100% USA Made & Berry Compliant

Engineered and manufactured at Safe Life Defense HQ in Henderson, NV USA using a proprietary manufacturing process.

BE UNSEEN

Concealable Under a T-Shirt

With incredible thinness (.18") come incredible possibilities. Conceal under anything.

SUPERIOR COMFORT

Made to Disappear

Fully flexible yet Self Structured™ panels provide increased comfort for constant all day wear. You will forget you are even wearing armor.

ULTIMATE PROTECTION

Fantastic BFD, V0 & V50 Ratings

Phenomenal blunt force mitigation, multi hit capability & edge shot protection.

OPTIONS

HYPERLINE™ Level IIIA Side Armor Panels 5"x7"

Great for overlapping protection or extra coverage, these 2 Hyperline™ side panels are exactly what you need for low profile & lightweight side protection in level IIIA. Weighing only 0.29 lbs per panel, they are exceptionally easy to wear all day long.

To be used with Safe Life Defense tactical Side Straps

Concealable FRAS®

Safe Life Defense FRAS® is a Flexible Rifle Armor feels and conceals just like soft armor but is rated to defend against .223, 5.56 and 7.62x39! Flexible Rifle Armor panels provide full front, rear and side coverage while still being lighter than most traditional rifle plates. Guaranteed to be the most comfortable rifle protection you have ever worn or your money back!

Truly Flexible Rifle Rated Armor

Safe Life Defense Flexible Rifle Armor is easy to wear all day, every day, and can even be worn concealed! Offering advanced rifle protection, it is rated to defend against all the most common .223 and 5.56 rounds including Green Tip, M193, M855 and SS109. This armor is also rated to stop 7.62x39 lead core ammo. In addition, it protects against all the most common handgun and shotgun rounds as well as strikes, slashes, stabs and tasers.

ULTIMATE PROTECTION

Fantastic BFD, V0 & V50 Ratings

Phenomenal blunt force mitigation, multi hit capability & edge shot protection well within the NIJ Safe Zone.

COMFORT

Unlike anything else

From the first moment you try it on, you will appreciate the comfort of Safe Life Defense Flexible Rifle Armor. The FRAS® feels just like soft armor and is worn the same way. Guaranteed to be the most comfortable rifle protection you will ever wear!

OPTIONS

FRAS® Side Armor Panels

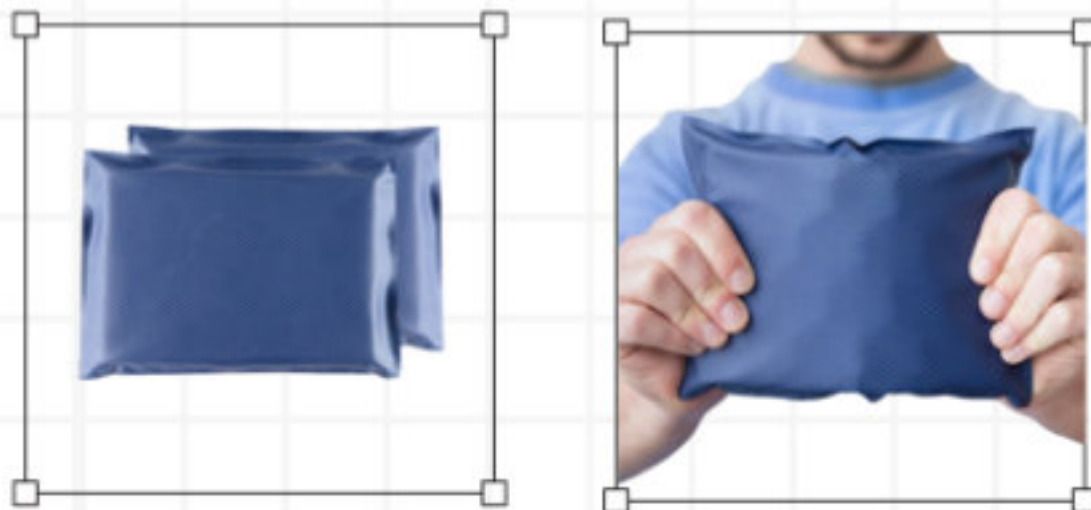

Great for overlapping protection or a little extra coverage, these 2 Flexible Rifle Armor side panels are exactly what you need to replace your heavy steel side armor plates. Enjoy comfortable and lightweight protection against .223 and 5.56 and say goodbye to steel forever!

[For a limited time, this set comes with FREE side straps so you can use them with any vest we make – not just our tactical!]

COVERAGE

5x The Coverage Area

Unlike traditional rifle plates that leave many areas of your body vulnerable, Safe Life Defense Flexible Rifle Armor covers your ENTIRE torso. This extra coverage is achieved without any additional weight! On average, two Safe Life Defense Level .223/5.56 panels weigh only 16 pounds making them much lighter than most steel and ceramic plate sets on the market.

BELTS

ACCESSORIES

INNER BELT AND OUTER BELT

2" Dual layer load bearing belt

Classic Duty Belt

YES, this is the belt all your friends have been recommending! If you are tired of your current belt sagging and shifting or the constant headache of needing to replace your belt frequently, then you want to take it to the next level with the Safe Life Defense Tactical Belt.

We spent years developing the ULTIMATE duty belt known for unrivaled durability (without using any metal reinforcement), while also ensuring comfort.

Backed by a lifetime warranty and extreme durability, this is the last duty belt you'll ever need. Enjoy carrying MORE GEAR with less pain in your hips & back the very first time you try on this revolutionary, high-quality belt.

FEATURES

- 2" Dual layer load bearing belt system with locking inner and outer belt
 - No more additional support needed!

INNER BELT AND OUTER BELT

2" Dual layer load bearing belt

Tactical Belt

YES, this is the belt all your friends have been recommending! If you are tired of your current belt sagging and shifting or the constant headache of needing to replace your belt frequently, then you want the Safe Life Defense Tactical Belt. We spent years developing the ULTIMATE duty belt known for being ultra-rigid (without using any metal re-inforcement). Backed by a lifetime warranty, this is the last belt you'll ever need. Enjoy carrying MORE GEAR with less pain in your hips & back the very first time you try on this revolutionary belt!

FEATURES

- Compatible with molle, slide on and clip on pouches
 - 2" Dual layer load bearing belt system with locking inner and outer belt.
- No more belt keepers!
- Minimalist design – Replace your worn duty belt

STRAPPED

Under Belt

The Safe Life Defense Under Belt is part of our dual layer belt system. The Under Belt is worn through your belt loops like a typical belt and can be worn on its own. The Under Belt belt interlocks with the Safe Life Defense outer belt to eliminate sagging, curling and belt keepers.

An Under belt is included with the Classic & Tactical belt.

FEATURES

- Interlocks with outer belts to eliminate shifting and sagging.
 - No more belt keepers!
- 2" Width with hook and loop closure (no buckles needed)
- Tapered end for easy threading through belt loops
- Compatible with nearly all belt loops
- Constructed of heavy duty Nylon Scuba Webbing (Suitable for EDC use)

- **Precision engineered using the finest materials available**

All Safe Life Defense pouches are MADE IN THE USA at the state of the art Safe Life Defense Headquarters in Henderson, Nevada.

OTHER FEATURES

Independently Adjustable Mag Bays

With 4 points of adjustment each magazine can be tensioned to your exact preferences.

Smallest Footprint of Any Triple Mag Pouch

Space savings is essential for any setup. The Safe Life Defense Triple Mag Pouch measures only 4.625" in width allowing you to carry three magazines where in the past only two have been available. This is achieved through the use of unique tensioning hardware paired with high strength Boltaron and Hyperlock composite fabric.

"Bullets Out" Orientation

By rotating magazine orientation by 90° Safe Life Defense mag pouches save space and decrease draw time by orientating your magazine in a more functional and ergonomic position.

Upgraded Hardware

.18" Stainless Steel Bolts provide an extremely secure and lightweight tensioning system that allows for a tighter magazine grouping.
